Project Summary

- The New Jersey Economic Development Authority (“EDA”) previously awarded a HDSRF Grant to the CRA for the remedial investigation, remediation and report preparation of the former RCA Building 8, also known as the Radio Lofts Building.
- The total amount of grant funds expended to date is \$1,262,089.07.
- It now appears that due to environmental issues and deterioration of the building it will be necessary to demolish the current building on the site in order to proceed with redevelopment of the site.
- To accomplish demolition of the building it is necessary to close out the HDSRF Grant and to obtain a release of a Historic Preservation Restriction/Easement held by the EDA.
- The EDA has communicated to the CRA that it will close out the grant and release the Historic Preservation Restriction/Easement upon re-payment of the expended grant funds at such time that the amount needed becomes available to the CRA.
