INTRODUCTION

STUDY AUTHORIZATION

On June 26, 2003, the Municipal Council of the City of Camden passed Resolution MC-03: 360, authorizing the City of Camden Planning Board to conduct an investigation to determine whether or not the Gateway Study Area is in need of redevelopment, and subsequent redevelopment plan. This report will provide data necessary for the Planning Board to render a determination as to whether the area does or does not require redevelopment pursuant to conditions of the study area and criteria identified in the New Jersey Local Redevelopment and Housing Law (40A: 12A-1, et seq.).

The Camden Division of Planning has prepared this Study To Determine The Need For Redevelopment for the Gateway area. Geographic Information Specialist staff of the Camden Redevelopment Agency assisted the Division of Planning in preparing this study, by conducting a field investigation of land uses and property conditions within the Gateway Study Area, and preparing associated databases and maps. Property ownership information, tax maps, and zoning information were obtained from City of Camden.

Former Sears store, now offices, on Admiral Wilson Boulevard

SCOPE OF STUDY

This Determination of Need Study is designed to explore the need as well as opportunities to revitalize Gateway through redevelopment projects, and involves several steps:

- Conduct an inventory of the Gateway Study Area's property and physical characteristics
- Show to what extent such characteristics and conditions meet criteria to determine the need for redevelopment, as outlined in State statute
- Propose findings and recommendations relevant to the determination of the need for redevelopment of the study area

REPORT SECTIONS

This report contains three sections. The first describes the Gateway study area and examines its existing zoning, land uses, vacancy, environmental sites, building heights, property conditions, and ownership. The second section describes criteria used in making a determination of need for redevelopment. The third provides findings, by applying the criteria to the observed and analyzed characteristics and conditions; and offers recommendations to the Camden Planning Board, relative to determining the redevelopment needs of the area.

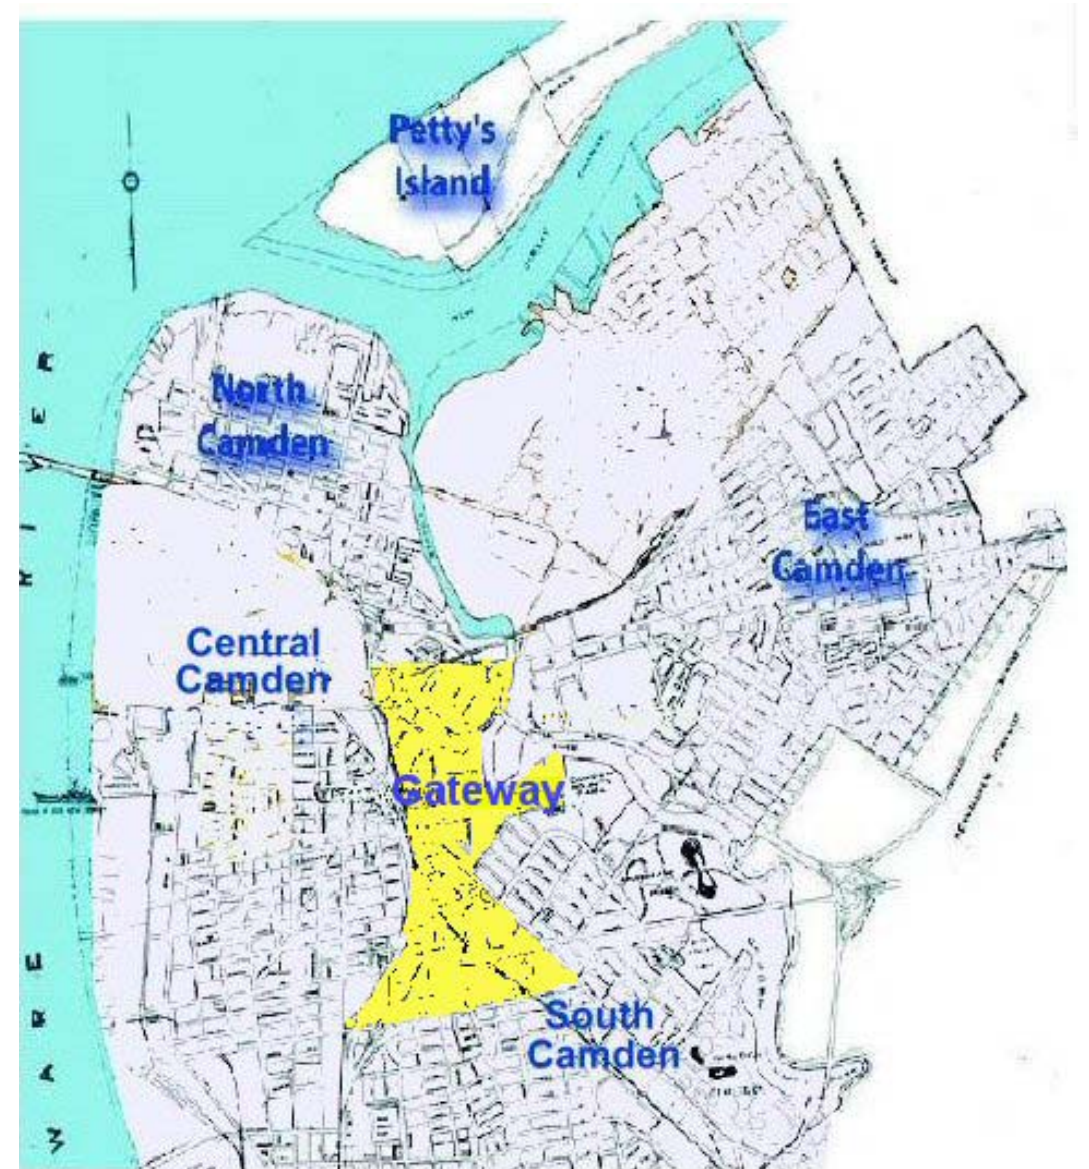

The New Jersey Redevelopment statute does not require that all property in the study area be in need of redevelopment; but rather that a majority or generality of properties meet the criteria for determination. As a result, the area may include individual parcels that do not reflect any of the eligibility criteria listed in the statute.

STUDY AREA CHARACTERISTICS

AREA LOCATION

The Gateway Study Area, U.S. census tract #6002, is located in central Camden along the Cooper River separating central and south Camden from the east section of the city. This area is bounded by the Federal Street on the north; Atlantic Avenue on the south; Interstate 676 on the west; and the Cooper River, Walnut Street, and Haddon Avenue on the east.

The Gateway Study Area study area, which measures approximately 135 acres or 0.2 square miles in size, is characterized by concentrations of housing, industries and institutions, including Campbell Soup corporate headquarters, Haddon Avenue, Kaighn Avenue and Mt. Ephraim Avenue commercial corridors, Camden Housing Authority Headquarters, City of Camden Department of Public Works, Old Camden cemetery and several churches.

TAX BLOCK AND LOTS

The Gateway Study Area's 83 tax blocks contain 1,554 properties (tax lots). A reoccurring problem with all recent Camden redevelopment studies is that the most current official tax maps (1995) often do not reflect lot consolidations and/or subdivisions identified in the 2005 Camden Tax Assessor's list of parcels. This report attempts to reconcile such differences as best we can, relying upon the Assessor's list as the basis for identifying the study area's tax blocks and lots. Nonetheless, Tax Block and Lot numbers for those properties studied in this report include:

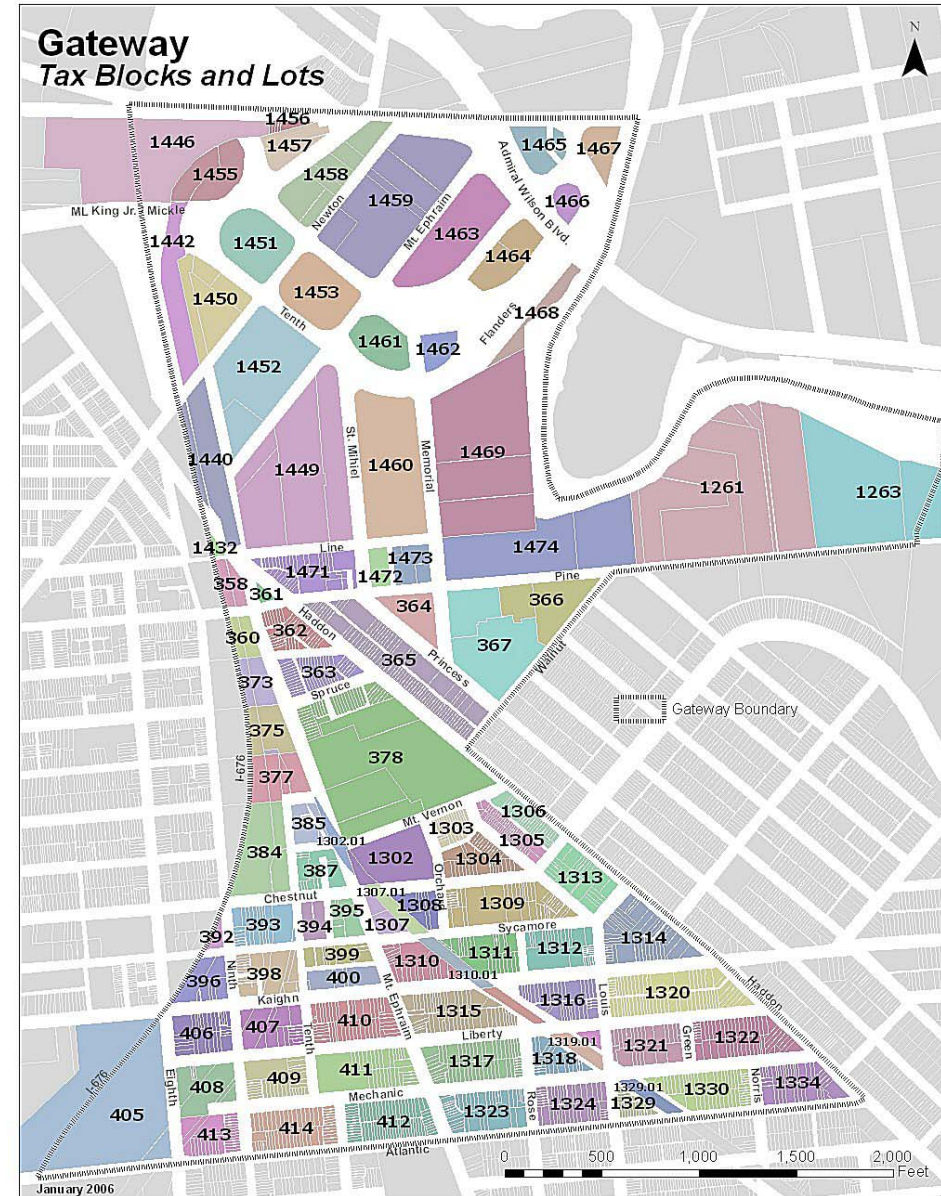

<u>BLOCK</u>	<u>LOT</u>

ZONING

The zoning of an area indicates the permitted use of property. Additionally, zoning controls building height, lot coverage, parking requirements, etc. In some instances, zoning can even control site design and building appearance. At present, Camden's Zoning Code is being revised from its last update in 1979. There are five zoning districts that exist in the Gateway Study Area: I-2 Heavy Industrial in the upper half of the study area, R-1 (Low Density) and R-2 (Medium Density) Single-Family and Garden Apartment Housing, in the lower half of the study area, C-R Commercial-Residential along the Haddon, Mt. Ephraim and Kaighn Avenue(s) commercial corridors, and two pockets of Institution-Residential, adjacent to Cooper Medical Center in the north and Virtua Medical Center in the south. Approximately half of the properties in the Commercial-Residential zone are businesses, while the other half includes homes and churches.

I-1 LIGHT INDUSTRIAL DISTRICT

This district is intended for light manufacturing and/or wholesale and storage activities, and/or heavy commercial uses.

PERMITTED USES: This district is intended for

- Wholesale storage, warehouse facilities
- Light industrial and manufacturing uses
- Lumber and building supply sales

PROHIBITED USES:

- Residential uses, except as living quarters for caretaker or watchman
- Storage of illumination gas or poisonous gases, except as may be incidental and essential to a permitted industrial process conducted on the premises.
- Stockyards and slaughterhouses other than for poultry.
- Foundries, forge shops and boiler works.
- Junkyards; and automobile graveyards; and the storage of secondhand building materials for resale, except in established lumber or building material yards.
- Storage of crude oil, its volatile products, or other flammable liquids in above-ground tanks, except as an incidental use to any permitted industrial uses.
- Adult entertainment uses
- Any radioactive and fissionable materials.
- Explosive uses of any kind.
- Generation of power, unless with use of smokeless fuels and effective smoke and fly-ash elimination equipment.

C-R COMMERCIAL-RESIDENTIAL DISTRICT

The purpose of the C-R Commercial-Residential District is to create a balance and harmony between neighborhood scale retail businesses and area houses and apartments. Within this district, lots or buildings shall be used or erected for any of the uses permitted in the C-2 district.

PERMITTED USES The following principal uses shall be permitted in this district:

- All uses permitted in Commercial C-1 and C-2 districts
- Automobile service establishments, as accessory uses to operating gas stations.
- Any use in a moderate-density residential zone (R-2 district)
- Theatres
- Parking lots, commercial
- Restaurants without limit on seating capacity
- General retail and service establishments of all types

PROHIBITED USES: Any uses not listed above shall be prohibited in this district, and specifically the following:

- Wholesale, storage, and warehouse facilities.
- Lumber and building supply sales and storage.
- Junkyards.
- Amusement centers of any type.
- Adult entertainment uses

I-R INSTITUTION-RESIDENCE DISTRICT

The Institutional-Residence Mixed Use District allows for residences and institutional uses to coexist even in adjacent parcels.

PERMITTED USES: Uses allowed in this district are

Uses allowed in this district are

- Any use permitted in an R-2 District
- Hospitals, sanitariums, and universities
- Planned unit developments
- Offices, businesses, governmental uses
- Collective off-street parking facilities

PROHIBITED USES: Use prohibitions include:

- Junkyards
- Wholesale storage, warehouse facilities
- Adult entertainment uses

ACCESSORY USES:

Accessory uses are permitted according to the specified area, bulk, and yard requirements.

R-1 RESIDENTIAL DISTRICT

The purpose of the R-1 Residential District shall be for single-family dwellings and garden apartments at a maximum density of approximately twenty-nine (29) units per acre.

PERMITTED USES The following principal uses shall be permitted in this district:

- Single-family dwellings of any type, and customary accessory buildings
- Municipal buildings or uses
- Noncommercial parks, playgrounds or recreation areas
- Churches or houses of worship
- Public, private or parochial educational institutions
- Planned unit residential development
- Planned unit development
- Home occupations and home professional offices

PROHIBITED USES. Any uses not listed above shall be prohibited, specifically the following:

- Signs in any form.
- Billboards.
- Lodging house, boarding houses, rooming houses, or any combination thereof.
- Any and all other non-residential uses.

ACCESSORY USES: The following uses as accessory to residential uses are limited to the following:

- Parking structures
- Swimming pools
- Other customary accessory uses

Typical Rowhouses

R-2 RESIDENTIAL DISTRICT

The purpose of the R-2 Residential District shall be for single-family and multi-family dwellings at a maximum density of approximately one hundred nine (109) units per acre.

PERMITTED USES The following principal uses shall be permitted in this district:

- Single-family dwellings of any type, detached and/or attached
- Multiple-family dwellings of any type
- Municipal buildings or uses
- Noncommercial parks, playgrounds or recreation areas
- Churches or houses of worship
- Public, private or parochial educational institutions
- Planned unit residential development
- Planned unit development
- Home occupations and home professional offices

PROHIBITED USES. Any uses not listed above shall be prohibited, specifically the following:

- Signs in any form.
- Billboards.
- Lodging house, boarding houses, rooming houses, or any combination thereof.
- Any and all other non-residential uses.

LAND USE

There are 1152 buildings in Gateway, which accounts for 74% of all 1,554 parcels in the study area. A little more than half (57%) of all properties and three-quarters (77%) of all structures in the Gateway Study Area are residential (885). There are 80 mixed retail commercial-residential (storefront with apartment above) buildings, located primarily along the Haddon, Kaighn and Mt. Ephraim Avenue(s) commercial corridors. In addition, there are 69 purely commercial buildings, as well as 74 industries, 34 institutions, and 10 garages. 402 various parcels of open space account for the balance of 26% of all properties in Gateway. Among this number of parcels are 307 vacant lots, 34 lots used for parking, 17 lots used for highway Right-Of-Way, 42 side yards, and 2 cemeteries.

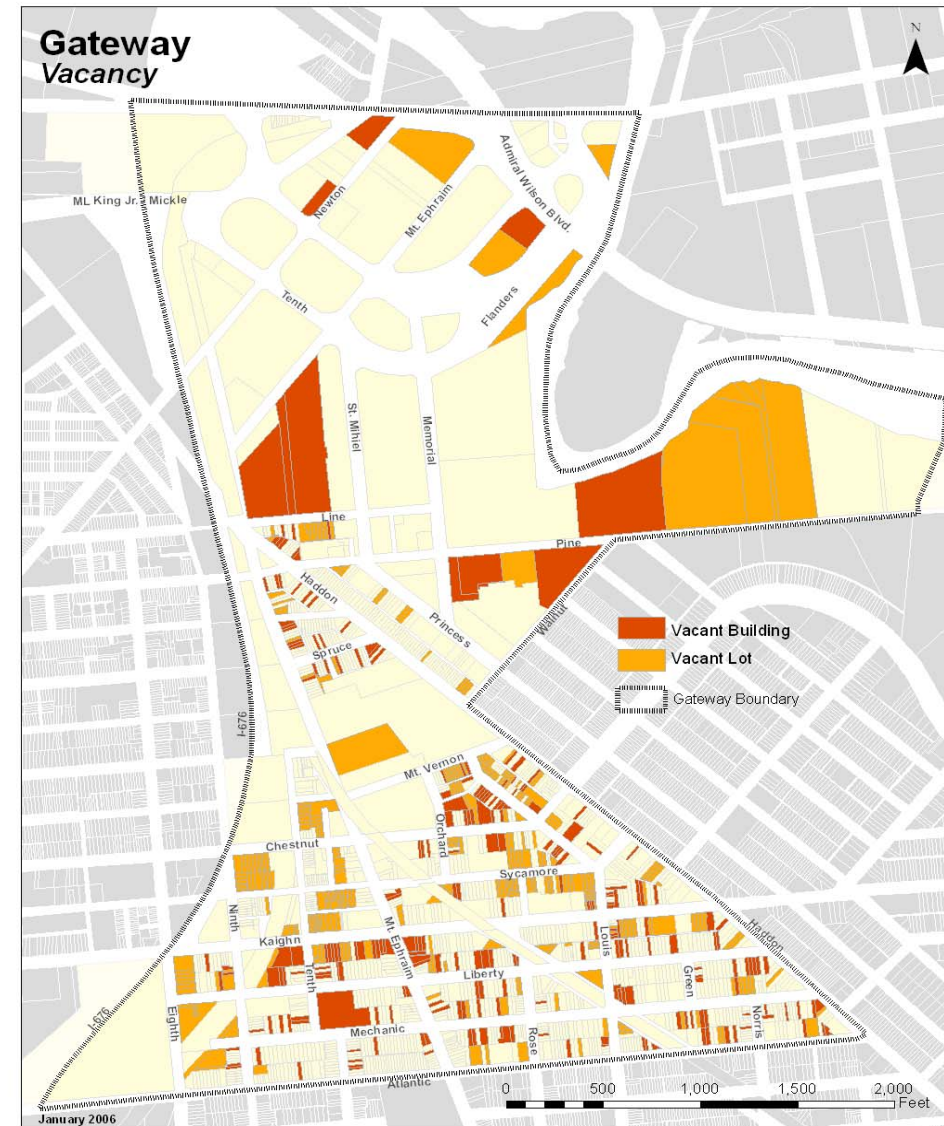

PROPERTY VACANCY

A little more than one-third (35%) of all property in the Gateway Study Area are vacant, with 242 vacant buildings (21% of all buildings) and 307 vacant lots (77% of all 402 open space parcels). Although there is no specific pattern, most vacants can be found on east-west bound streets, and are generally found south of Pine Street. The table below provides the number of land uses by type and the number of vacancies in each type.

Table 1: Land Use and Vacancy

Land Use	Total	Occupied	Vacant
Residential	885	712	173
Commercial	69	53	16
Res./Commercial	80	48	32
Institutional	34	33	1
Industrial	74	54	20
Garage	10	10	0
Sub-Total	1152	910	242
Cemetery	2	2	0
Side Yard	42	42	0
Parking Lot	34	34	0
ROW	17	17	0
Vacant Lot	307	0	307
Total Parcels:	1554	1005	549

ENVIRONMENTAL SITES

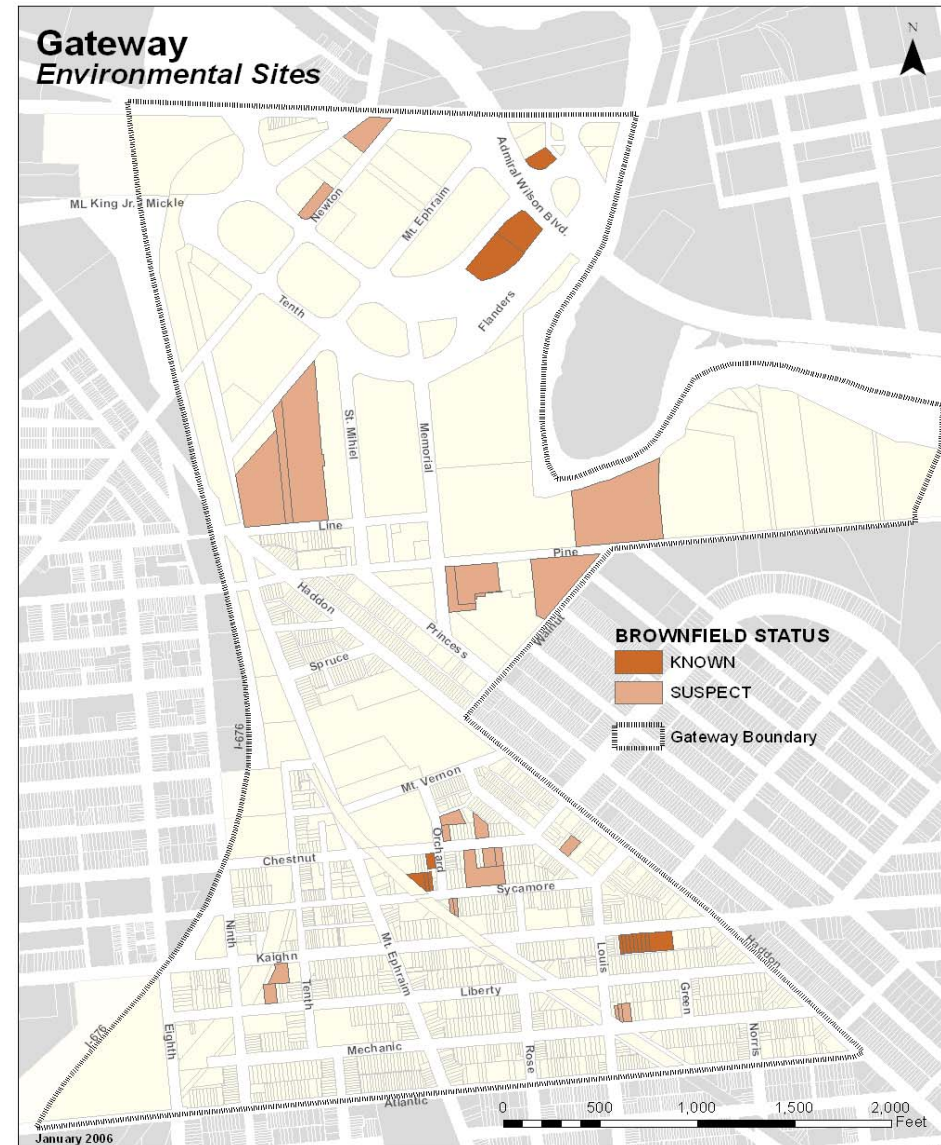

According to New Jersey state law (NJSA 58:10B-23d) a brownfield is “any former or current commercial or industrial site that is currently vacant or underutilized and on which there has been, or there is suspected to have been, a discharge of a contaminant.” In these cases, such sites will require environmental remediation before redevelopment can occur. A report by the NJ Department of Environmental Protection titled *Known Contaminated Sites in NJ* annually reports on contaminated sites throughout the state, including Camden. While there are apparently 14 known contaminated sites identified in Gateway from recent reports by NJDEP, there are also 23 additional parcels that could have contaminants on them. These suspect properties will become the focus of environmental assessments and investigations, to determine whether or not they should be to be considered as contaminated sites. The accompanying list and map show where sites known and suspected to be contaminated are likely located.

PROPERTY CONDITIONS

A survey of building conditions enhances our understanding of property investment levels, and should be reviewed using the following definitions:

- **Good:** Well maintained structures, or those in need of minor cosmetic improvements
- **Fair:** Structures in need of moderate non-structural rehab improvements
- **Poor:** Structures in need of major rehabilitation, or in need of demolition

The assessment of property conditions, conducted by The Reinvestment Fund during the spring of 2005 acknowledged the following limitations:

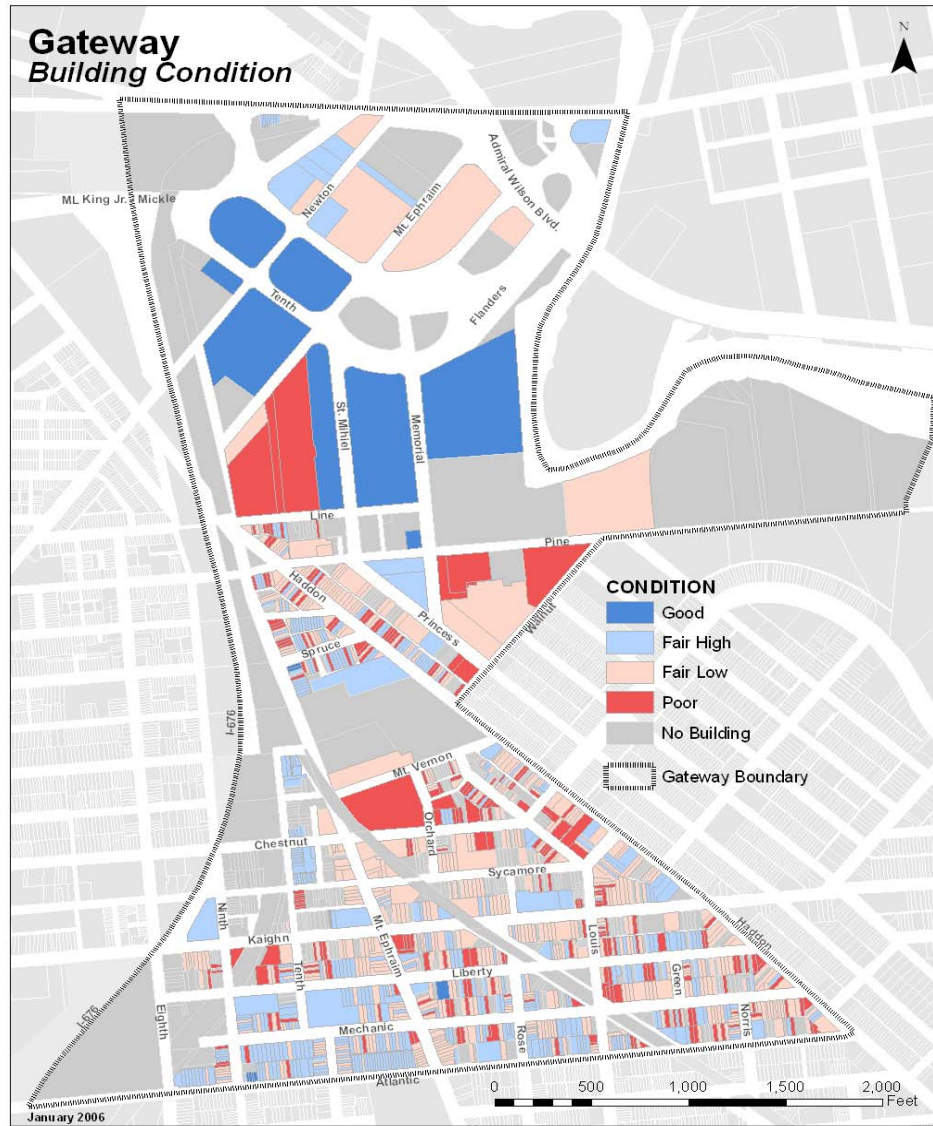

1. Superficial: Observations were of building exteriors only; it was not possible to observe the condition of buildings' interiors and rears.
2. Subjective: Even among design professionals (architects, planners and engineers), there is expected to be some variation of opinion regarding the assessments of property conditions. This subjectivity applies all the more when such observations are focused upon property reinvestment potentials.
3. Mutable: Whether they improve or decline, property conditions change over time. The purpose of this assessment is to capture appearances at this point in time, a 'snapshot' of conditions, as it were.

Of the 1,554 properties in the Gateway Study Area, 1,152 or approximately 74% have structures upon them. Of these, only 14 or 0.01% are considered to be in **Good** condition; of buildings in this type of condition, half or 7 are residential. Properties observed to be in **Fair** condition (901) account for 78% of all building uses; of this type of property condition, 78% of these are residential. Those properties judged to be in substandard or deteriorated condition (242) and thus have been classified as **Poor**, account for 21% of all buildings in Gateway; of these, most (73.5%) are residential.

The following table shows property conditions by major land use type.

Table 3: Building Conditions

Land Use	Good	Fair	Poor	Total
Residential	7	700	178	885
Commercial	3	44	22	69
Res./Commercial	0	63	20	80
Institutional	2	29	3	34
Industrial	2	53	19	74
Garage	0	10	0	10
Total	14	901	242	1152

BUILDING HEIGHTS

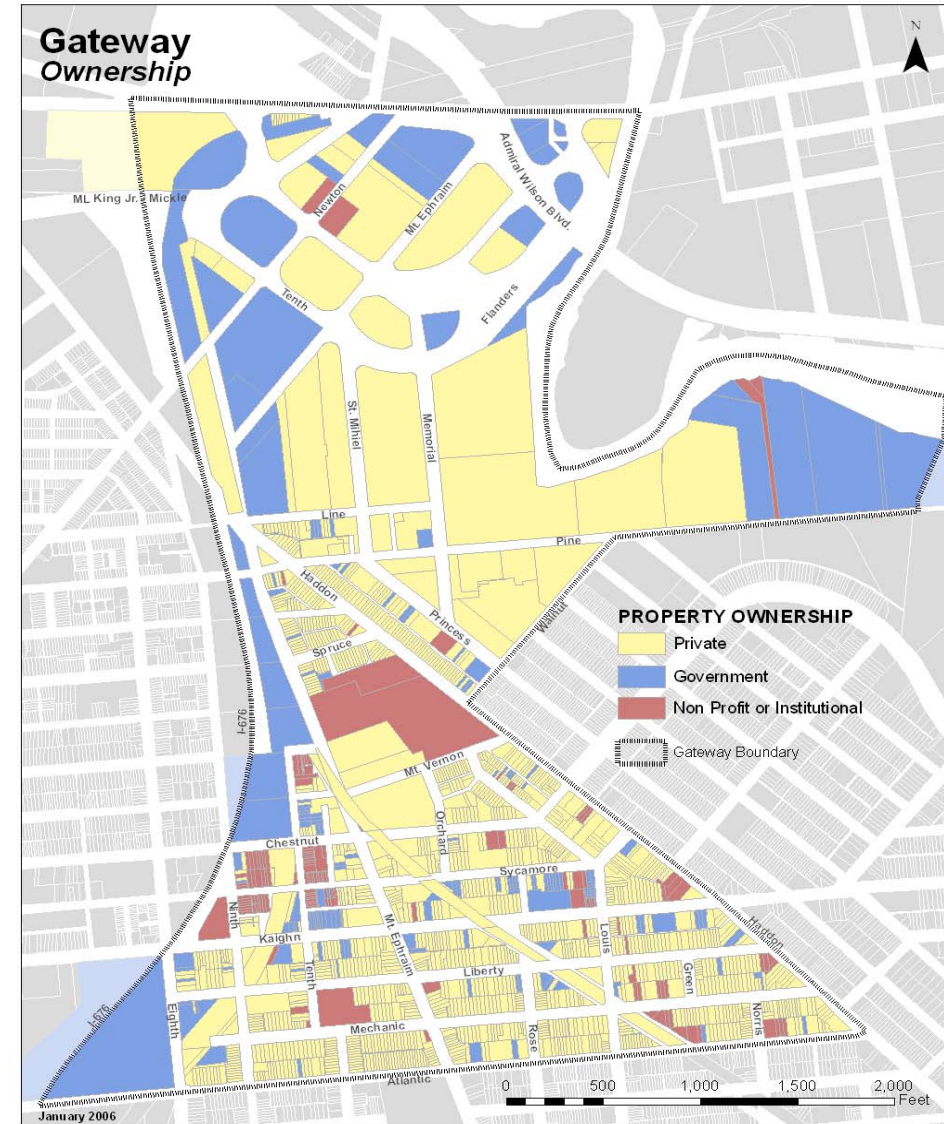

With the exception of the several 1-storey warehouses, office and commercial buildings, and two 6-storey office buildings, the majority of buildings of all types in Gateway are predominately 2 and 3-stories in building height.

PROPERTY OWNERSHIP

A majority of all the Gateway study area's properties (1,299 parcels or 83%) are privately owned. Local, state, and federal government, including the City of Camden, owns 169 properties or 11%. Institutional and non-profit organization ownership, including churches, housing and social service agencies, account for 86 properties or 5.5% of the total of 1,554 parcels.

Closer examination of property ownership information reveals that approximately 1,097 parcels in the Study Area (70.5% of all properties), including City agencies, have Camden-based owners. For property owners residing outside of Camden, 323 parcels (20.7% of the total) are owned by those who live nearby in other parts of New Jersey, and the balance of 134 parcels (8.6% of the total properties) are owned by people residing outside of New Jersey, as nearby as Philadelphia Pennsylvania and as far away as Florida, California and Texas.

STATUTORY CRITERIA

The purpose of the New Jersey Local Redevelopment and Housing Law (LRHL) is to promote the physical development and improvement of "... conditions of deterioration in housing, commercial, and industrial installations, public services and facilities and other physical components and supports of community life, . . . which . . . without this public effort are not likely to be corrected or ameliorated by private effort." LRHL empowers local governments in their efforts to reverse these conditions and promote the advancement of community interests through programs of redevelopment, rehabilitation, and incentives to expand and improve commercial, industrial, residential, and civic facilities. In order to declare an area in need of redevelopment, the governing body of the municipality must conclude, after investigation and public hearing, that within the delineated area at least one of the following conditions set out in this statute must exist (NJSA: 40A: 12A):

- (A) The generality of buildings are substandard, unsafe, unsanitary, dilapidated, or obsolescent, or possess any of such characteristics, or are so lacking in light, air, or space, as to be conducive to unwholesome living or working conditions.
- (B) The discontinuance of the use of buildings previously used for commercial, manufacturing, or industrial purposes; the abandonment of such buildings; or the same being allowed to fall into so great a state of disrepair as to be untenable.

- (C) Land that is owned by the municipality, the county, a local housing authority, redevelopment agency or redevelopment entity, or unimproved vacant land that has remained so for a period of ten years prior to adoption of the resolution, and that by reason of its location, remoteness, lack of means of access to developed sections or portions of the municipality, or topography, or nature of the soil, is not likely to be developed through the instrumentality of private capital.
- (D) Areas with buildings or improvements which, by reason of dilapidation, obsolescence, overcrowding, faulty arrangement or design, lack of ventilation, light and sanitary facilities, excessive land coverage, deleterious land use or obsolete layout, or any combination of these or other factors, are detrimental to the safety, health, morals, or welfare of the community.
- (E) A growing lack or total lack of proper utilization of areas caused by the condition of the title, diverse ownership of the real property therein or other conditions, resulting in a stagnant or not fully productive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare.
- (F) Areas, in excess of five contiguous acres, whereon buildings or improvements have been destroyed, consumed by fire, demolished or altered by the action of storm, fire, cyclone, tornado, earthquake or other casualty in such a way that the aggregate assessed value of the area has been materially depreciated.

(G) Area in any municipality in which an enterprise zone has been designated pursuant to the 'New Jersey Urban Enterprise Zones Act,' RL.1983, c.303 (C.52: 27H-60 et seq.) the execution of the actions prescribed in that act for the adoption by the municipality and approval by the New Jersey Urban Enterprise Zone Authority of the zone development plan for the area of the enterprise zone shall be considered sufficient for the determination that the area is in need of redevelopment pursuant to sections 5 and 6 of P L.1992, c.79 (C.40A: 1 2A-5 and 40A: 12A-6) for the purpose of granting tax exemptions within the enterprise zone district pursuant to the provisions of P.L.1991, c.431 (C.40A:20-1 et seq.) or the adoption of a tax abatement and exemption ordinance pursuant to the provisions of PL.1991, c.441 (C.40A:21-1 et seq.). The municipality shall not utilize any other redevelopment powers within the urban enterprise zone unless the municipal governing body and planning board have also taken the actions and fulfilled the requirements prescribed in P.L.1992, c.79 (C.40A: 12A-1 et al.) for determining that the area is in need of redevelopment or an area in need of rehabilitation and the municipal governing body has adopted a redevelopment plan ordinance including the area of the enterprise zone.

(H) The designation of the delineated area is consistent with smart growth planning principles adopted, pursuant to law or regulation.

DETERMINATION

FINDINGS

In addition to being part of the NJ - Camden Urban Enterprise Zone (criterion G), two other criteria identified area land uses and property conditions in the Gateway Study Area, which makes it in need of redevelopment. The following criteria from the Local Redevelopment and Housing Law, applicable to Gateway's circumstances were found:

(B) THE DISCONTINUANCE AND ABANDONMENT OF COMMERCIAL, MANUFACTURING, OR INDUSTRIAL BUILDINGS; OR BEING ALLOWED TO FALL INTO A STATE OF DISREPAIR AS TO BE UNTENANTABLE.

(E) A LACK OF PROPER UTILIZATION OF AREAS, RESULTING IN A STAGNANT OR NOT FULLY PRODUCTIVE LAND USE.

(G) AREA IN ANY MUNICIPALITY IN WHICH AN ENTERPRISE ZONE HAS BEEN DESIGNATED PURSUANT TO THE NEW JERSEY URBAN ENTERPRISE ZONES ACT.

The findings of this investigation clearly indicate that the Gateway Study Area qualifies as an area in need of redevelopment. Criteria B, E, and G of NJSA 40A: 12A have been met

Specific stability and development problems identified in the Study Area and establishing grounds for this determination, include:

- Under-utilization of several properties
- Presence of several vacant properties and brownfields sites
- Inclusion in a NJ Urban Enterprise Zone

CONCLUSION

This study recommends that the Camden City Planning Board and Municipal Council, after public notice and hearings, make a determination that the Gateway Study Area is in need of redevelopment according to law; and subsequent to the approval of a redevelopment plan to address these needs, be declared a Redevelopment Project Area.

Once declared a redevelopment area, a redevelopment plan can be prepared and implemented to ensure proper utilization, revitalization, and development of property within Gateway. It is expected that existing institutions, businesses, and housing within the Study Area will experience renewal and improvement as a result of Gateway's designation, followed by implementation of the Gateway Redevelopment Plan.

It is further anticipated that redevelopment activity will re-establish and enhance a reinvigorated and fully functional neighborhood. Many properties in the Gateway study area have a stabilizing influence and can significantly contribute to the area's redevelopment. This leveraging potential is in concert with New Jersey's redevelopment statute, which states that '... a redevelopment area may include lands, buildings, or improvements which of themselves are not detrimental... but the inclusion of which is found necessary... for effective redevelopment of the area of which they are a part.'

APPENDICES

APPENDIX A: CITY COUNCIL RESOLUTION

RESOLUTION MC-03: 360 _____

R-7

MAR:djl
06-26-03

RESOLUTION REQUESTING THE PLANNING BOARD AND THE DIVISION OF PLANNING OF THE CITY OF CAMDEN TO CONDUCT AN INVESTIGATION AND PREPARE AN AREA IN NEED OF REDEVELOPMENT STUDY AND A REDEVELOPMENT PLAN FOR THE GATEWAY NEIGHBORHOOD (CENSUS TRACT 6002)

WHEREAS, N.J.S.A. 40A:12A-1, et seq., authorizes the governing body of any municipality, by resolution to have its Planning Board conduct a determination of need study for any areas of the municipality for the purpose of developing a redevelopment plan; and

WHEREAS, the City Council of the City of Camden considers it to be in the best interest of the City to have its Planning Board conduct such an investigation and study for the purpose of developing a redevelopment plan for the Gateway Neighborhood; and

WHEREAS, the proposed areas to be studied in the Gateway Neighborhood Area is a diverse development opportunities through potential acquisitions of property in certain select development areas within census tract 6002; and

WHEREAS, the present land uses within the subject areas indicated an under utilization of valuable property that would better serve the City of Camden if it were redeveloped; now, therefore

BE IT RESOLVED, by the City Council of the City of Camden that the Planning Board of the City of Camden is requested to conduct a Determination of Need Study for the purpose of developing a Redevelopment Plan for the Gateway Neighborhood Area; and

BE IT FURTHER RESOLVED that the staff of the Planning Department, the Camden Redevelopment Agency and other appropriate City agencies, and their consultants assist the Planning Board in conducting said study and developing a Redevelopment Plan for the aforesaid areas of the City; and

BE IT FURTHER RESOLVED that said Determination of Need Study and Redevelopment Plan shall be submitted to the governing body for their review and approval in accordance with the provisions of N.J.S.A. 40A:12A-1, et seq.

BE IT FURTHER RESOLVED that pursuant to N.J.S.A. 52:27BBB-23, a true copy of this resolution shall be forwarded to the Chief Operating Officer, who shall have ten days from the receipt thereof to approve or veto this resolution. Notice of approval or veto shall be filed in the office of the Municipal Clerk.

On Motion Of: ISRAEL NERVES

Dated: June 26, 2003

The above has been reviewed and approved as to form.

APPENDIX B: PROPERTY PROFILE

APPENDIX B: PROPERTY PROFILE LIST

Investigation of property characteristics was included in the study of the Broadway Area. This research identified tax block and lot numbers, street and address, zoning, present use, property condition, owner and mailing address for owners' tax bills (as recorded by the City Tax Assessor). This data is listed in the following format:

BLOCK Tax Block number

LOT Tax Lot number

ADDRESS Specific location, expressed as a number, along with Street or Avenue name

NEC North East Corner; **NWC** North West Corner

SEC South East Corner, **SWC** South West Corner

ZONING Zoning District

USE **COM**mmercial, **IND**ustrial, **INST**itutional, **LOT** (vacant land), **ParKinG** lot, **RES**idential, **R/C** = Res/Com, **ROW** = Right-Of-Way, **SideYARD**

V/O **O**ccupied or **V**acant

OWNER Owner's name, surname first

MAILING Where tax bills are mailed. Camden addresses are given simply as street address or Post Office Box number. Locations outside of Camden are given only as town and state.
