INTRODUCTION

STUDY AUTHORIZATION

On July 10, 2003, the Municipal Council of the City of Camden passed Resolution MC-03: 433, authorizing the City of Camden Planning Board to conduct an investigation to determine whether or not the Rosedale Study Area is in need of redevelopment, and subsequent redevelopment plan. This report will provide data necessary for the Planning Board to render a determination as to whether the area does or does not require redevelopment pursuant to conditions of the study area and criteria identified in the New Jersey Local Redevelopment and Housing Law (40A: 12A-1, et seq.).

The Camden Division of Planning, with assistance from The Reinvestment Fund, a Philadelphia-based non-profit organization that provides technical and funding assistance to other non-profit development groups in the region, has prepared this Study To Determine The Need For Redevelopment for the Rosedale area. The Reinvestment Fund assisted the Division of Planning in preparing this study, by conducting a field investigation of land uses and property conditions within the Rosedale Study Area, and preparing associated databases and maps. Property ownership information, tax maps, and zoning information were obtained from City of Camden.

SCOPE OF STUDY

This Determination of Need Study is designed to explore the need as well as opportunities to revitalize Rosedale through redevelopment projects, and involves several steps:

- Conduct an inventory of the Rosedale Study Area's property and physical characteristics
- Show to what extent such characteristics and conditions meet criteria to determine the need for redevelopment, as outlined in State statute
- Propose findings and recommendations relevant to the determination of the need for redevelopment of the study area

REPORT SECTIONS

This report contains three sections. The first describes the Rosedale study area and examines its existing zoning, land uses, vacancy, environmental sites, building heights, property conditions, and ownership. The second section describes criteria used in making a determination of need for redevelopment. The third provides findings, by applying the criteria to the observed and analyzed characteristics and conditions; and offers recommendations to the Camden Planning Board, relative to determining the redevelopment needs of the area.

The New Jersey Redevelopment statute does not require that all property in the study area be in need of redevelopment; but rather that a majority or generality of properties meet the criteria for determination. As a result, the area may include individual parcels that do not reflect any of the eligibility criteria listed in the statute.

STUDY AREA CHARACTERISTICS

AREA LOCATION

The Rosedale Study Area, U.S. census tract #6011.01, is located in east Camden along the city's border with Pennsauken Township. This area is bounded by the Conrail railroad tracks on the north, separating Rosedale from the east Camden neighborhood of Cramer Hill; the long-disused Rosedale Avenue/railroad tracks on the south and west; and Pennsauken Township (36th and 42nd Streets) on the east.

The Rosedale Study Area study area, which measures approximately 0.4 square miles in size, is characterized by concentrations of housing, including a high-rise senior citizen apartment building as the remaining structure of the former Westfield Acres public housing project, and the newer Baldwin's Run single-family houses that replaced Westfield Acres, industrial properties along the north railroad tracks, the Westfield Avenue commercial corridor, Davis Elementary School, several churches and Dudley Grange park.

TAX BLOCK AND LOTS

The Rosedale Study Area's 75 tax blocks contain 1,491 properties (tax lots). A reoccurring problem with all recent Camden redevelopment studies is that the most current official tax maps (1995) often do not reflect lot consolidations and/or subdivisions identified in the 2005 Camden Tax Assessor's list of parcels. This report attempts to reconcile such differences as best we can, relying upon the Assessor's list as the basis for identifying the study area's tax blocks and lots. Nonetheless, Tax Block and Lot numbers for those properties studied in this report include:

ZONING

The zoning of an area indicates the permitted use of property. Additionally, zoning controls building height, lot coverage, parking requirements, etc. In some instances, zoning can even control site design and building appearance. At present, Camden's Zoning Code is being revised from its last update in 1979. There are three zoning districts that exist in the Rosedale Study Area: C-R Commercial-Residential, along Westfield Avenue, I-2 Heavy Industrial, along the north/Conrail railroad, and R-1-A Single-Family Detached Housing, which include the three-quarters of the remaining area of the study area and allows a variety of uses, including single-family houses, (area apartment buildings have received zoning variances for their use) as well as schools, churches and other institutions. Approximately half of the properties in the Westfield Avenue Commercial-Residential zone are businesses, while the other half include homes and churches.

I-2 HEAVY INDUSTRIAL DISTRICT

The railroad and parcels along the north end of the study area are zoned as an Industrial District. This district is intended for heavy industrial and manufacturing uses.

PERMITTED USES: This district is intended for

- Wholesale storage, warehouse facilities
- Heavy industrial and manufacturing uses
- Lumber and building supply sales

PROHIBITED USES:

- Residential uses, except as living quarters for caretaker or watchman
- Automobile and truck sales
- Junkyards; and automobile graveyards
- Automobile body repair
- Freestanding retail commercial structures
- Adult entertainment uses
- Billboards
- Places of public assembly, including trade or vocational schools

CONDITIONAL USES:

Conditional permits are needed for junkyards and storing illuminating gas and oil.

C-R COMMERCIAL-RESIDENTIAL DISTRICT

The purpose of the C-R Commercial-Residential District is to effect an interface between commercial and residential uses, i.e. to create a balance and harmony between neighborhood scale retail businesses and area houses and apartments. Within this district, lots or buildings shall be used or erected for any of the uses permitted in the C-2 district.

PERMITTED USES The following principal uses shall be permitted in this district:

- All uses permitted in Commercial C-1 and C-2 districts
- Automobile service establishments, as accessory uses to operating gas stations.
- Any use in a moderate-density residential zone (R-2 district)
- Theatres
- Parking lots, commercial
- Restaurants without limit on seating capacity
- General retail and service establishments of all types

LAND USE

There are 1274 buildings in Rosedale, which accounts for 85% of all 1,491 parcels in the study area. More than three-quarters (80%) of all properties and 94% of all structures in the Rosedale Study Area are residential (1197). There are 35 mixed retail commercial-residential (storefront and apartment) buildings, located primarily along the Westfield Avenue commercial corridor. In addition, there are 20 purely commercial buildings, as well as 11 institutions, 7 industries and 4 garages. 217 various parcels of open space account for the balance of 15% of all properties in Rosedale. Among this number of parcels are 76 vacant lots, 17 lots used for parking, 1 park and 123 side yards.

PROPERTY VACANCY

Vacancy is low in Rosedale; only 6.5% of all property in the Rosedale Study Area is vacant, with 22 vacant buildings (1.7% of all buildings) and 76 vacant lots (35% of all 217 open space parcels). Although there is no specific pattern, most vacant lots can be found on north-south bound streets, and are generally found west of 36th Street. The table below provides the number of land uses by type and the number of vacancies in each type.

ENVIRONMENTAL SITES

According to New Jersey state law (NJSA 58:10B-23d) a brownfield is “any former or current commercial or industrial site that is currently vacant or underutilized and on which there has been, or there is suspected to have been, a discharge of a contaminant.” In these cases, such sites will require environmental remediation before redevelopment can occur. A report by the NJ Department of Environmental Protection titled *Known Contaminated Sites in NJ* annually reports on contaminated sites throughout the state, including Camden. While there are apparently only two known contaminated sites identified in Rosedale from recent reports by NJDEP, it is reasonable to assume that some large vacant lots could have contaminants on them. Such suspected properties will become the focus of environmental assessments and investigations, to determine whether or not they should be to be considered as contaminated sites. The accompanying list and map show where sites known and suspected to be contaminated are likely located.

PROPERTY CONDITIONS

A survey of building conditions enhances our understanding of property investment levels, and should be reviewed using the following definitions:

- **Good:** Well maintained structures, or those in need of minor cosmetic improvements
- **Fair:** Structures in need of moderate non-structural rehab improvements
- **Poor:** Structures in need of major rehabilitation, or in need of demolition

The assessment of property conditions, conducted by The Reinvestment Fund during the spring of 2005 acknowledged the following limitations:

1. Superficial: Observations were of building exteriors only; it was not possible to observe the condition of buildings' interiors and rears.
2. Subjective: Even among design professionals (architects, planners and engineers), there is expected to be some variation of opinion regarding the assessments of property conditions. This subjectivity applies all the more when such observations are focused upon property reinvestment potentials.
3. Mutable: Whether they improve or decline, property conditions change over time. The purpose of this assessment is to capture appearances at this point in time, a 'snapshot' of conditions, as it were.

Of the 1,491 properties in the Rosedale Study Area, 1274 or approximately 85% have structures upon them. Of these, 182 or 14% are considered to be in **Good** condition; of buildings in this type of condition, 181 or 99% are residential. Properties observed to be in **Fair** condition (1074) account for 84.3% of all building uses; of this type of property condition, 93% of these are residential. Those properties judged to be in substandard or deteriorated condition (18) and thus have been classified as **Poor**, account for 1.4% of all buildings in Rosedale; of these, most (89%) are residential.

The following table shows property conditions by major land use type.

BUILDING HEIGHTS

With the exception of the 10-storey senior citizen tower apartment building formerly associated with the Westfield Acres public housing project, and two 4-storey churches, all other structures in the Rosedale Study Area are two and three-stories or less in height, with several parcels having no structures on them.

PROPERTY OWNERSHIP

A majority of all the Rosedale study area's properties (1408 parcels or 94%) are privately owned. Local, state, and federal government, including the City of Camden, owns 68 properties or 4.5%. Institutional and non-profit organization ownership, including churches, housing and social service agencies, account for 15 properties or 1% of the total of 1,491 parcels.

Closer examination of property ownership information reveals that approximately 11571 parcels in the Study Area (78.5% of all properties), including City agencies, have Camden-based owners. For property owners residing outside of Camden, 189 parcels (12.7% of the total) are owned by those who live nearby in other parts of New Jersey, and 145 parcels (9.7% of the total properties) are owned by people residing outside of New Jersey, as nearby as Philadelphia Pennsylvania and as far away as Florida, California and Hawaii.

STATUTORY CRITERIA

The purpose of the New Jersey Local Redevelopment and Housing Law (LRHL) is to promote the physical development and improvement of "... conditions of deterioration in housing, commercial, and industrial installations, public services and facilities and other physical components and supports of community life, . . . which . . . without this public effort are not likely to be corrected or ameliorated by private effort." LRHL empowers local governments in their efforts to reverse these conditions and promote the advancement of community interests through programs of redevelopment, rehabilitation, and incentives to expand and improve commercial, industrial, residential, and civic facilities. In order to declare an area in need of redevelopment, the governing body of the municipality must conclude, after investigation and public hearing, that within the delineated area at least one of the following conditions set out in this statute must exist (NJSA: 40A: 12A):

- (A) The generality of buildings are substandard, unsafe, unsanitary, dilapidated, or obsolescent, or possess any of such characteristics, or are so lacking in light, air, or space, as to be conducive to unwholesome living or working conditions.
- (B) The discontinuance of the use of buildings previously used for commercial, manufacturing, or industrial purposes; the abandonment of such buildings; or the same being allowed to fall into so great a state of disrepair as to be untenable.

- (C) Land that is owned by the municipality, the county, a local housing authority, redevelopment agency or redevelopment entity, or unimproved vacant land that has remained so for a period of ten years prior to adoption of the resolution, and that by reason of its location, remoteness, lack of means of access to developed sections or portions of the municipality, or topography, or nature of the soil, is not likely to be developed through the instrumentality of private capital.
- (D) Areas with buildings or improvements which, by reason of dilapidation, obsolescence, overcrowding, faulty arrangement or design, lack of ventilation, light and sanitary facilities, excessive land coverage, deleterious land use or obsolete layout, or any combination of these or other factors, are detrimental to the safety, health, morals, or welfare of the community.
- (E) A growing lack or total lack of proper utilization of areas caused by the condition of the title, diverse ownership of the real property therein or other conditions, resulting in a stagnant or not fully productive condition of land potentially useful and valuable for contributing to and serving the public health, safety and welfare.
- (F) Areas, in excess of five contiguous acres, whereon buildings or improvements have been destroyed, consumed by fire, demolished or altered by the action of storm, fire, cyclone, tornado, earthquake or other casualty in such a way that the aggregate assessed value of the area has been materially depreciated.

(G) Area in any municipality in which an enterprise zone has been designated pursuant to the 'New Jersey Urban Enterprise Zones Act,' RL.1983, c.303 (C.52:27H-60 et seq.) the execution of the actions prescribed in that act for the adoption by the municipality and approval by the New Jersey Urban Enterprise Zone Authority of the zone development plan for the area of the enterprise zone shall be considered sufficient for the determination that the area is in need of redevelopment pursuant to sections 5 and 6 of P L.1992, c.79 (C.40A: 1 2A-5 and 40A: 12A-6) for the purpose of granting tax exemptions within the enterprise zone district pursuant to the provisions of P.L.1991, c.431 (C.40A:20-1 et seq.) or the adoption of a tax abatement and exemption ordinance pursuant to the provisions of PL.1991, c.441 (C.40A:21-1 et seq.). The municipality shall not utilize any other redevelopment powers within the urban enterprise zone unless the municipal governing body and planning board have also taken the actions and fulfilled the requirements prescribed in P.L.1992, c.79 (C.40A: 12A-1 et al.) for determining that the area is in need of redevelopment or an area in need of rehabilitation and the municipal governing body has adopted a redevelopment plan ordinance including the area of the enterprise zone.

(H) The designation of the delineated area is consistent with smart growth planning principles adopted, pursuant to law or regulation.

DETERMINATION

FINDINGS

In addition to being part of the NJ - Camden Urban Enterprise Zone (criterion G), two other criteria identified area land uses and property conditions in the Rosedale Study Area, which makes it in need of redevelopment. The following criteria from the Local Redevelopment and Housing Law, applicable to Rosedale's circumstances were found:

(B) THE DISCONTINUANCE AND ABANDONMENT OF COMMERCIAL, MANUFACTURING, OR INDUSTRIAL BUILDINGS; OR BEING ALLOWED TO FALL INTO A STATE OF DISREPAIR AS TO BE UNTENANTABLE.

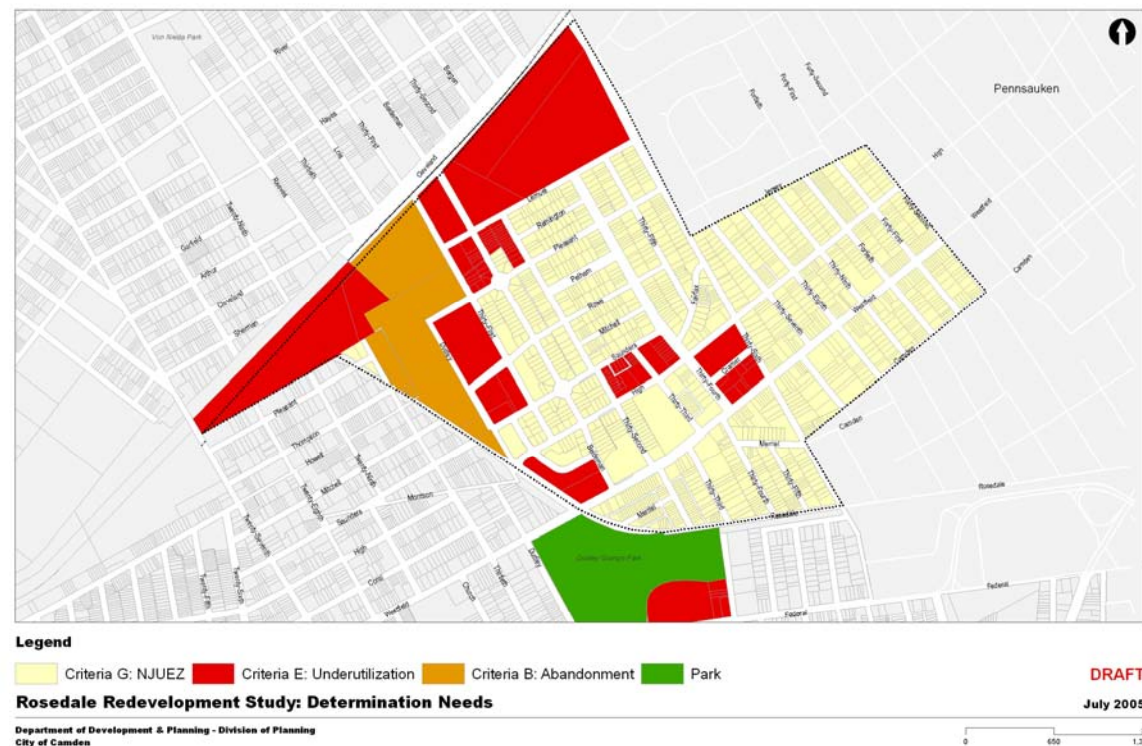

(E) A LACK OF PROPER UTILIZATION OF AREAS, RESULTING IN A STAGNANT OR NOT FULLY PRODUCTIVE LAND USE.

(G) AREA IN ANY MUNICIPALITY IN WHICH AN ENTERPRISE ZONE HAS BEEN DESIGNATED PURSUANT TO THE NEW JERSEY URBAN ENTERPRISE ZONES ACT.

The findings of this investigation clearly indicate that the Rosedale Study Area qualifies as an area in need of redevelopment. Criteria B, E, and G of NJSA 40A: 12A have been met

Specific stability and development problems identified in the Study Area and establishing grounds for this determination, include:

- Under-utilization of several properties
- Presence of several vacant properties and brownfields sites
- Inclusion in a NJ Urban Enterprise Zone

CONCLUSION

This study recommends that the Camden City Planning Board and Municipal Council, after public notice and hearings, make a determination that the Rosedale Study Area is in need of redevelopment according to law; and subsequent to the approval of a redevelopment plan to address these needs, be declared a Redevelopment Project Area.

Once declared a redevelopment area, a redevelopment plan can be prepared and implemented to ensure proper utilization, revitalization, and development of property within Rosedale. It is expected that existing institutions, businesses, and housing within the Study Area will experience renewal and improvement as a result of Rosedale's designation, followed by implementation of the Rosedale Redevelopment Plan.

It is further anticipated that redevelopment activity will re-establish and enhance a reinvigorated and fully functional neighborhood. Many properties in the Rosedale study area have a stabilizing influence and can significantly contribute to the area's redevelopment. This leveraging potential is in concert with New Jersey's redevelopment statute, which states that '... a redevelopment area may include lands, buildings, or improvements which of themselves are not detrimental... but the inclusion of which is found necessary... for effective redevelopment of the area of which they are a part.'
